

TA Meeting
February 25, 2013

Meeting Minutes Feb 25 TA Meeting

4:00-5:00pm

Attendance: All

Tasks done last two weeks:

- Revise SRS
- Finished first draft of SDD
- Wanted to do implementation but fell behind because of time spend on SDD
- Database set up
- Each team member went over tasks completed in last 2 weeks and tasks planned for this coming week

Design:

Oliver in charge of system design

We designed 7 discrete systems

- Easy to implement each system concurrently
- Each system functional

Vlad in charge of program design

-Designed class diagrams to show external dependencies and inner class functionalities

Each group is responsible for 2 systems

Developing and Testing:

While developing, generate documentation and unit tests

During testing phase, integration, system testing, and test more in-depth

Tasks for this week:

- Get SRS back from Evgeny and submit to Niel
- Get project plan back sometime this week hopefully
- Get back SDD as soon as possible
- Catch up on implementation and finish first sprint
 - Core functionalities for each system should be completed by the end of the week
