Meeting Minutes March 4 TA Meeting

4:00 - 5:00

Attendance: All (Oliver by Skype)

Team Tasks for past week:

- Handed in SRS to Neil, was supposed to get back to us Today by noon
- Just got back SDD, will make changes to it as we go through implementation
- Catching up on implementation and finishing up core functionalities
- Manual Testing of implementation for now
- Each team member went over individual tasks for past week and plan for coming week

Decisions agreed on:

- Minor database changes
- Use Reshaper with Visual Studio for formatting
- Stick with two code reviews for each commit

Tasks for this week:

- Team meeting Tuesday instead of lecture
 - Assign sprint 2 tasks: half on front end, half on back end/functionality
 - Everyone should do an in progress code review to get idea on where each module is
- Finish sprint 1 assignments (should be done by end of week)
- On track to get Project Plan back this week
