Team Meeting

February 7, 2013

Meeting Minutes Feb 7
Time: 12:30 - 2:00
Attendance: Everyone

What we decided and agreed on:
5 weeks implementation:
    -Core functionalities 2 weeks in (friday of reading break)
    -All other required and core functionalities in next 2 weeks
    -Final week to catch up and add any additional minor features

Code Review:
Each member should submit at least 1 code review every week and review 2 other
people's every week
Be sure to review others code that is related to your features.

Souce control:
Feature branches and individual branches off of them
    -Can push to feature after 2 other Ship It's
Features don't get pushed to master branch until group agrees on doing so

Code Formatting:
Class names are Capitalized
Variables are camel case
Constants in all caps with underscores between each word
Private variables start with underscore
4 spaces instead of tab
Constants used in 2 or more files put in separate file
Open braces on same line, close braces on different line

Tasks for this week:
Finish Project Plan
Everyone should do at least one C# and ASP.net tutorial by the end of the weekend

Calendar:
Meeting Feb 22 to review first coding deadline
SDD due feb 25
    -Content deadline due feb 22
